

Lumin

Product category	Collaborative Space
Certification	Greenguard
LEED contribution	— Recycled content — Regional materials — Low-Emitting materials
Environmental facts	— Up to 94% recyclable — Up to 4% recycled content
Production location	Kunshan, Jiangsu, China

LEED v4.1 Interior Design and Construction (ID+C)

Category	Item	Contribution	Credits
Materials & Resources (MR)	Recycled content	4% Pre-consumer : 0% Post-consumer : 4%	0
	Regional material	Manufactured in Kunshan, Jiangsu, China. If project location is within 160 km (100 miles), may contribute to MRc5: Regional Materials credit.	1
	Construction and Demolition Waste Management	Knocked down packaging reduces volume and waste. packaging materials include recyclable carton box and PE bag, which may support waste diversion efforts if managed on-site.	1
Indoor Environmental Quality (IEQ)	Low-Emitting Materials	GREENGUARD certification ensures compliance with stringent low VOC emissions requirements for furniture and furnishings, supporting achievement of this credit. E0 formaldehyde rated MFC used both on worktop and screens, no glue has been used for fabric upholstery	1

The information provided in this document is for general reference only and does not constitute a guarantee of LEED certification. Project-specific conditions, regional requirements, and final construction practices may affect actual LEED credit achievement. Clients are advised to consult a LEED-accredited professional for project-specific guidance.
